

ASTROLOGICAL HOUSES FOR MANIFESTING

The Astrological House system consists of twelve “houses,” numbered from 1-12, in a wheel-shaped design. The houses each represent an area of life or of an experience, and the twelve combined leave no stone unturned. Every aspect of life fits into one of the houses. Each house is built on the one prior, similar to how we go through life. There are stages that we move through as we go around the wheel, and as we go, we acquire skills and knowledge. Similar to how we navigate life in this cycle, we can also apply this method to goal setting and manifesting.

In this workbook, you will find pages for each of the twelve houses, along with prompts and questions that will nudge you to consider how you can work with each house’s energy. This process is cyclical, as once we reach the end, we begin again. This is the framework for staying steady on our path of manifesting and keeping our eyes on the goal. The magick in manifesting is keeping the idea and goal alive. This system has been created to support you in that process. Work through it as you go, or complete it all at once to use as your guide.
